## PROJECTS

**Personal Portfolio Website**
*Full Stack Frontend web Technologies*
- Live personal portfolio website built using Full Stack Frontend web Technologies such as HTML, CSS, and JavaScript.

**GamingZone Website**
*Full Stack  web Technologies*
- Live Gaming website built using Full Stack web Technologies such as Angular and NodeJS.

**Invisible Cloak**
*Python using OpenCV*
- A project based on masking technique using OpenCV in Python as represented in Harry Potter.

**Handwritten digit Classifier**
*Machine Learning*
- A classification model with a large data set and high accuracy rate to classify handwritten digits.

**Car-Selling Price Prediction**
*Python using Flask*
- ML model deployed on a Heroku cloud platform in order to predict car selling price using Python and Flask.

**Automation and Application Development**

*Python Projects*

- Implemented Hangman game, Email Slicer, alarm clock with GUI, Whatsapp automation, Desktop Notifier, Reddit Bot, Text to Speech and Speech to Text converter.

**Twitter Sentimental Analysis using NLP**

*ML using Python*

- A model designed trained to perform the sentimental analysis of the twitter feeds and to detect polarity of text documents or short sentences and to classify them as positive, negative and impartial.

**WebChat**

*FullStack web technologies*

- A online chat web application hosted on a local server, implemented using FullStack technologies such as HTML, CSS, JavaScript, NodeJS and SocketIO.

**Grossify**

*Android using Java*

- Android application based on online grocery shopping also implemented as College Mini Project for the session 2020-2021.

## SKILLS

**TECHNICAL:** Python, C, Java, PHP, HTML, CSS, JavaScript, Angular, NodeJS, MySQL, MongoDB, AI/ML, Object Oriented Programming, Functional Programming, Data Structure and Algorithm, Data Algorithms and Analysis, Agile Methodology and Scrum.

**PROFESSIONAL:** Effective Analytical Skills, Ability to identify and solve problems, Team Building, Team Management, Leadership, Interpersonal Communication, Retrospective View and Risk Management.

## CERTIFICATIONS

- Participated in Hacktober Fest 2020.
- Cisco Netacad Introduction to IOT.
- Participated in ML Data Visualization Workshop.
- Completed Intel 'AI from data center to the edge' workshop.
- Nasscom Future Skills Introduction To Packet Tracer.
- Attended webinar on Azure Durable Functions and secured 60% in Graded Quiz.
- Attended workshop on Data Structure and Algorithm.
- Attended International Open Access Week.
- Participated in HackInIndia Hackathon.
- Introduction to Docker and Kubernetes by SkillLync.

## Extra/Co-Curricular Activities

- Coordinated SRIJAN (Cultural Fest, GLA) and participated in MAITREE (Sports Fest, GLA).
- Secured Runner up position in University level North India Basketball Tournament (09/2018).

## INTERESTS

Programming & Coding, Blog Writing, Reading Books, Entrepreneurship Review, Listening Music, Watching Movies, Sports such as playing Basketball, Volunteering and Travel.

## DECLARATION

I hereby declare that all the above mentioned information is true and correct to the best of my knowledge.
